## Why We Do It

Wonago and The Kololi Beach Club through their "Support the People" campaign are working with the Gambian Hotel Association and Local Charities to promote The Gambia as an "all year round" holiday destination. This is important for the local economy as each working person supports up to 12 other people, by filling spare capacity in the region it helps to keep the local people employed through out the year. Most visitors holiday in The Gambia during the winter to get away from the UK weather, which leaves the resorts quieter for the other months.

With our Holidays everyone benefits, Recipients get a Great Holiday, Dealers Sell More and The Gambia Local Economy gets Support.

## What You Get

Wonago provide a number of Holiday Accommodation Packages which we have found attract great interest and produce most donations:
